NAME: Hilde Verbeek

TITLE: Dr

PROFESSIONAL GROUPING: Neuropsychology

WORK ADDRESS: CAPHRI School for Public Health and Primary Care
Dept of Health Services Research
Faculty of Health, Medicine and Life Sciences
Maastricht University, the Netherlands
Visiting address: Duboisdomein 30; 6229 GT Maastricht, Room 0.021

TEL: +31 (0)43 38 81513

FAX: +31 (0)43 38 84162

EMAIL: h.verbeek@maastrichtuniversity.nl

WEBLINK: www.maastrichtuniversity.nl/hsr

PRESENT POSITION e.g. Director of etc AND HIGHEST ACADEMIC QUALIFICATION e.g. PhD MD etc:
Research Fellow, PhD

PROFILE OF MEMBER

Hilde Verbeek is currently working as a research fellow at Maastricht University, focusing on care environments for people with dementia. She works within the FP7 funded European study 'RightTimePlaceCare', Improving health service for European citizens with dementia: Best practice strategies' development for transition from formal professional home care to institutional long-term nursing care facilities. In addition, she has been a visiting Research Fellow at the University of Manchester (May 2011 – April 2012) at the Personal and Social Services Research Unit (PSSRU) within the School for Community-based Medicine, United Kingdom, focusing on service delivery in old age mental health. Next to research activities, she is involved in teaching (BSc, MSc and PhD) in the Health Sciences education program.

AREAS OF EXPERTISE

1. Dementia care environments
2. Long-term nursing care for people with dementia
3. Quality of life and quality of care in nursing homes

(please use a second page for this section if necessary but indicate this by ticking in following box) PG 2

RELEVANT RESEARCH ACTIVITY

Please indicate for past 5 years only (i) Grants Awarded: Names of Investigators; Years; Title of Project; name of awarding agency. (ii) PhD and other projects: Title; start or completed date

PhD-thesis "Redesigning dementia care. An evaluation of small-scale, homelike care environments"(2011).

Niels Stensen Stipendium (October 2010), grant to conduct research abroad at the University of Manchester (The Balance of Care for Older People with Dementia).

European study 'RightTimePlaceCare': Improving health service for European citizens with dementia: Best practice strategies' development for transition from formal professional home care to institutional long-term nursing care facilities (2010-2013)

CURRENT RESEARCH INTERESTS/ONGOING PROJECT TITLE

See also relevant research activity. My research interests mainly involve the effect of dementia care environments (e.g. physical, social and organisational) on symptom manifestation of people with dementia (e.g. cognitive, activities of daily life, neuropsychiatric symptomatology), quality of life and quality of care.
